Dear Bill:

I can't begin to tell you how pleased we are with yours and Evelyn's design and work on the kitchen project in our condo. The kitchen is tight; it's esthetically pleasing; the combination of the various colors (cabinets, walls, granite, green glass back-splash) is rich and beautiful; the lighting creates fabulous moods and sensations; and the finished project will definitely be the focal point of the great room area. The green glass tile backsplash actually makes the lighter green flecks in the Uba Tuba granite counter tops appear to be lifted to the top of the stone. The under-cabinet pucks and the orange/red glass pendant shades when lit, whether shown together or individually, make magic. It is absolutely stunning and beautiful! I will make sure I send you and Evelyn some before and after shots of the project for your individual portfolios.

Thanks again for your dedication and commitment to outstanding workmanship, your appreciation for beauty, and your patience and support of us. We look forward to doing business with you in the future.

Sincerely,

Diane B. Green
